GOING THE DISTANCE

A product guide dedicated to
bringing people back together in
a physically distanced world.

Outdoor Seating Solutions That Provide Distance Between Users

Now more than ever, the world is moving outdoors, outdoor cafes, outdoor classrooms, outdoor meetings, if it can be done outdoors, our society is finding ways to make it happen. At UltraSite we see the need and the possibilities and we are striving to do our part to safely bring communities back together.

We have carefully selected products that provide space between users, and compiled them into this product guide.

*The CDC recommends a distance of 6' between users, all products listed do not adhere to this guideline and are recommended for same household usage when applicable.

Visit our website at www.ultra-site.com for more information
or call us at (800) 458 5872 for any inquiries.
